“ My Aunt Donna. My earliest memory of My Aunt Donna was when she was watching me at her house in Waynoka. I was MAYBE 4 years old at the time, but the thing that stands out to me was she played a record of the song "Tiger by the tail" by Buck Owens. Not just once. Or twice. But, over and over again. Enough times that when I hear it even today, I think of her. I know she is special to so many people for many different reasons, and this is just one of many things that makes her special to me. Another time she came to visit at our house in Wichita. For some reason she was tasked with cooking duties and made a wonderful batch of what most of us refer to as hamburger gravy. Us kids re-named the dish to be called "Donna gravy" from that time forward. I think about her every time I make it. My memories of her are numerous, and priceless to me. I will see her again soon, and I will thank her for every single one of them. Until then, I'll use them to keep her close to me. ❤️
